What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the foregoing roots for the cure of just such ailments as the above symptoms indicate: Prof. R. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of American Dispensatory; Prof. Jno. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive *free* booklet giving extracts from writings of all the above medical authors and many others endorsing, in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.

REPENTING AT LEISURE.

In a gust of tears and surrounded by a throng of sympathizing women on the deck of the steamer Minnehaha at New York yesterday, beautiful Florence Schenck, the Virginia girl, who went abroad to drive Alfred G. Vanderbilt's horses, accused Charles H. Wilson, manager of the millionaire's stable, of bigamy and threatened to kill him.

"Wilson married me in Richmond Va., on October 19 last," said Miss Schenck, "but I know now that he has a wife and children. I hate him. This will probably end in my killing him. He has ruined my life. I am an outcast without a friend in the world, not even my father and mother."

Wilson, who was also a passenger on the vessel, sullenly denied he had gone through any marriage ceremony with Miss Schenck.

"We were! We were!" vehemently insisted Miss Schenck. "I have my marriage certificate."

The recriminations of the pair caused a furore among the passengers. Miss Schenck declared she was penniless, and that unless Wilson provided her with funds she would be obliged to stay on the ship.

Miss Schenck is the daughter of Dr. and Mrs. Powhatan Schenck, of Norfolk, Va. She is only 19 years old, but is renowned in the South as a whip. During the Norfolk Horse Show last fall she drove some of Mr. Vanderbilt's horses, and accepted an engagement to show some of them in the ring in London at the International Horse Show.

Miss Schenck's father and mother protested in vain, and when she persisted in going in spite of them they cast her off.

Miss Schenck is extremely beautiful, a perfect blonde, and she was dressed in blue, with a white leghorn hat carrying an immense blue plume.

Speaking of her relations with Wilson and of their trip to Europe, Miss Schenck said: "When it came time for us to sail back he tried to induce me to stay on the other side, but I insisted on coming. He treated me brutally all the way over. On Sunday night he knocked me senseless—look here, where he struck me." Baring her left arm, Miss Schenck displayed a huge purple discoloration.

"He beat me," she said, "because I was talking to another man. The surgeon had to attend to me. He threatened a dozen times to kill me if I said anything about what he had done to me.

"I don't know what I am going to do. I haven't 50 cents to my name. On the way up the bay I was offered $200 to sign a paper repudiating my marriage, but I refused."

Miss Wilson went to the Victoria Hotel as soon as she landed and last night, according to Dr. Smith, the hotel surgeon, she was suffering from nervous prostration and he declined to allow anyone to see her.

Miss Scheneck says that Wilson told her he loved her desperately, persuaded her to break her engagement to Lieut. Ashton to whom she was engaged and married her. Miss Scheneck asserts that it was not until after their departure from Norfolk for New York that Wilson told her he was already married. Miss Scheneck also says that she was introduced to the real Mrs. Wilson at East Orange, N. J.

Best Medicine in the World for Colic and Diarrhoea.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirum, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." For sale by W. F. Creighton & Co., and Gibson and Timberman.

Great Historical Exhibit.

Norfolk, Va., July 9.—John P. Kennedy, Virginia State librarian, has announced that the portraits and historic documents from the library will be placed in the Historic Arts buildings at the Jamestown Exposition in a few days. These exhibits are estimated as worth $81,000 and the general assemblage consists of one hundred portraits and something like a thousand historic documents. Mr. Kennedy and the assistant librarian, Edward S. Evans, have been at the exposition for several days arranging the cases for the exhibit. These cases representing the finest possible workmanship, are of mahogany, and contain large glass doors, fitted with locks for the protection of the exhibits. The building in which these exhibits will be housed is absolutely fire-proof, costing between $125,000 and $140,000. In addition to this protection, expert caretakers will be on hand throughout the exposition period, while a number of competent guards will be detailed to the building. The Virginia State exhibit, more than any other, is of the greatest historic significance, since it unfolds in unbroken record the eventful history of the settlement and growth of the United States. The collections from many other States are also very complete and of great value. Beginning many years before the western countries were discovered, strange documents are shown, which portray the social and political conditions in Europe which led to the discovery of America. These are accompanied with colonial relics, etc., and thus the complete history of the country is given. The exhibit constitutes the largest one of its kind ever assembled in this country at any exposition, and to the student and layman alike it is intensely interesting. Among the other States which will have especial representation in this building are North Carolina, South Carolina, Georgia, New York, Ohio, Vermont, New Jersey, Delaware, Massachusetts, Louisiana and Pennsylvania, while several others will be represented in the exhibits shown by the Daughters of the American Revolution and the Colonial Dames.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative sold by E. S. Leadbeater & Sons.

Burned to Death.

During the storm which passed over Elkton, Md., and vicinity Sunday night the large barn on the Morrow farm, six miles north of Elkton, was struck by lightning and set on fire. Two farm hands—Isaac Delcors, a white man, and William Davis, colored—were in the building at the time, and they were burned to death. The supposition is that the men were stunned by the lightning and were unconscious while the flames raged around them. A large lot of feed and two calves were also destroyed, and the loss is estimated at $3,500. A portion of the skelton of one of the bodies was covered yesterday morning, and by the charred skull it is supposed to be that of Delcors. The body of the negro is expected to be found when the debris is scattered.

81 and 65 to Marry; His Fifth Venture.

Beaver, Pa., July 9.—James Bruin, 81 years old, of New Brighton, and Mrs. Mary Reynolds, 65, were granted a marriage license yesterday. Bruin and Mrs. Reynolds are the oldest pair ever licensed to marry in Beaver county. Both principals are well known in Beaver Valley, where they have lived for years. During his long life Bruin has been married four times, while it is Mrs. Reynold's second matrimonial venture. The participants declare that it is a love match, pure and simple. The prospective bridegroom is still a vigorous old man, and looks good for years more of life. The pair will be married in New Brighton July 15 by Rev. Benjamin Lee.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at E. S. Leadbeater & Son's drug store.

FOR OVER SIXTY YEARS.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

TUESDAY EVENING. JULY 9. 1907.

THE experience of Miss Florence Schenck, of Norfolk, nineteen years old, the handsome daughter of Dr. Schenck, will prove a sad chapter in the life of the thoughtless young woman. She arrived in New York yesterday on an Atlantic liner repudiated by a man named H.C. Wilson, who had pretended to marry her last October, but who now renounces her as his wife. She is penniless in a strange city where she has been left to repent at leisure of thoughtlessly uniting herself to a man who, she says, has a wife and children in another part of the country. The case of the young woman naturally appeals to the sympathy of all good people, but at the same time the sad circumstances in connection with her case should be a warning to others who are prone to enter the matrimonial yoke with men of whom they know but little. It is no uncommon incident for men to take up temporary residence in cities where their history is unknown and to impose on unsuspecting females. The latter, thrown into ecstacy by the volubility and magnetism of such chance acquaintances, are generally inconsiderate, and plunge into matrimony. Too often desertions follow, and the victims of such adventurers have the remainder of their lives clouded.

THE school board of Nashville, Tenn., is decidedly and properly eclectic in its choice of teachers. The board has concluded to give no employement to any but southern colored teachers in the colored schools of the city, on the ground that those from the north are not familiar with southern traditions and sentiment, and are prone to teach strange and dangerous doctrines. Other southern cities will do well to follow the example of Nashville, for if the ideas of some of these colored northern institutions were introduced in the South riot and bloodshed would follow. For instance, a colored Methodist bishop named Walters, of Jersey City, in a recent speech to the Afro-American League, said:

> Whatever social equality may signify to the white, to the ignorant negro and, apparently, to many who are not ignorant, it means one thing—the right to stand on the same footing with a white woman as that on which a white man stands with her.

One never hears such sentiments from the colored people of the south. They neither talk nor think that way and many of them would resent such a speech if made in their present.

CERTAIN men in the north who enlisted in three months' regiments in 1861, but were not sent to the front and refused then or later to enlist in regiments that were sent forward, and certain men who refused to go into the service because they found the conditions were not what had been represented to them, and were mustered in only to be immediately mustered out, have been clamorous for pensions. The Pension Bureau has issued a statement showing that these men did not serve in the civil war for ninety days, and therefore are not pensionable. "Those who failed or refused," the statement concludes, "to serve their country at least ninety days in its time of need are not entitled to a pension, and one would they should be interested in a profound silence as to their military records and their claims as soldiers (?) on the country." Such pension seekers, says the Philadelphia Record, as these have done much to discredit the pension system and delay the extension of very liberal treatment to the men who really rendered service.

MARRIED men whose wives make a habit of keeping them at the end of a very short string should buy the current number of Books of Today, mark a certain passage in blue pencil, and leave the paper, carelessly enough, in some conspicuous place. This is the passage to be marked: "A woman who selfishly monopolizes a man, or who interferes with his occupation, will not long keep his friendship. Very few women are clever enough to see this. A man will be eternally faithful if a woman does not hang herself like a millstone around his neck." If she does, on the other hand, he will not be unfaithful. Millstones are so heavy. When you see a man permaturely bent, therefore, you will know the reason—there is an invisible millstone hanging around his neck. The whole matter is summed up rather neatly by a wit, who thus describes the husband's day: "Eight hours for sleep, eight hours for work and eight hours for explanations." There is no moral to this paragraph, except that in an emergency other people's sayings may be uncommonly useful.

DR. JULIAN P. THOMAS, millionaire aeronaut, wind-wegonist, and automobilist, who while riding in an automobile with two young girls at midnight Sunday night in New York was thrown out by a collision, will recover from his injury. One of his companions lost a leg by the accident, and the other, while escaping serious injury, was scared out of a seven years' growth by her experience. The doctor's wife, who was in another city, hastened to his bedside. The circumstances in connection with the accident render it incumbent upon the doctor to make an explanation not only to his wife but to the relatives of the two young women he was whisking about the streets of New York during the we sma' hours.

AN entirely new method of "trustbusting" has been envolved by the Department of Justice, which, it is understood, is to be tried first on the tobacco trust, and, if successful, will be applied to other monopolies of the country. The scheme is to have receivers appointed to take charge of the business of the trust and administer it in harmony with the law. Such a course, if sanctioned by the court, would require the receivers taking charge of a corporation to administer its business with a view to the gradual disintegration of such monopoly; that is to say, such receivers administering such business would from time to time be expected to sell and dispose of the different property units composing such monopoly in such a way as to preserve all the essential rights of the stockholders and yet at the same time ultimately give to the general public the benefit of competion between separate and independent corporations of businesses. In a petition to be filed in New York within a few days the government will ask that the monopoly complained of be declared illegal and in violation of the Sherman law and that receivers be appointed. It is understood that if the plan proves successful the same course will be taken with the powder trust and other monopolies, if the evidence in possession of the government is sufficient to justify such action.

MAYOR SCHMITZ, of San Francisco, is now a felon, sentenced to serve five years in the penitentiary for extorting money from French restaurants. The brazen effrontery of the man in the closing act of his political history, together with his defiant attitude at the time of his disgrace, shows the blunder the people of San Francisco were guilty of in electing such a man executive of the city. But when he was sentenced he blurted out a declaration that the people of San Francisco knew that he had been "rail roaded" to conviction and that he would run again for Mayor of the city in the fall, and would trust to the people of San Francisco to vindicate him at the polls. This shows that he still believes the people whom he has so glaringly humbugged for years past will continue to be his dupes—and he may judge them correctly.

From Washington.

[Correspondende of the Alexandria Gazette.]
Washington, July 9.

The effort that is to be made by the Department of Justice to throw into the hands of federal receivers the tobacco and powder trusts and all other alleged bad corporations, which are to be prosecuted hereafter, can, in a measure, be taken as an official response to criticism that the President's trust policy is buncombe. The administration has been restless under the charge that while suits are brought and trusts dissolved, the combinations in restraint of trade appear to operate quite as successfully to the public detriment as before being attacked. If the courts show the slightest disposition to meet the Department of Justice half way in its latest sensational move, trust fighters here say a long step will be taken toward securing actual dissolution of trusts. Whatever the outcome, the attorney general believes it will demonstrate to the general public the sincerity of the administration's policy and an endeavor by its officers to eradicate the industrial and commercial evils which now exist. Papers in the suit against the tobacco trust will be filed in New York city tomorrow. The petition in the proposed suit against the powder trust, which will be filed in Cincinnati shortly, is almost ready for the signature of the attorney general. It has been entirely re-written, the original petition not having embodied the receivership feature.

Another step in the fight for the millions of the late Captain John M. Clapp, who made something like $5,000,000 in the coal fields at Tidioute, Pa., will be completed, when Justice Wright, of the Supreme Court of the District of Columbia, hands down his opinion in a few days as to the right of the local courts to administer the estate. Arguments have just been completed. Mrs. Frances C. Hall, of Pittsburg, a daughter, claims that the New York courts alone have jurisdiction, while the widow, who is executrix, desires to have the District courts pass upon the case. Mrs. Hall wants to break the will on the ground of mental incapacity and undue influence.

The difference between "cemetery" and "seminary" to W. F. Dorsey and W. A. Peffer, two proof readers of the government printing office, is just $34.25. Both passed the proof of a work for the bureau of education in which the world "seminary," appeared as "cemetery." The books had to be reprinted. The two men were compelled by Public Printer Stillings to bear the cost of correction. The new policy has caused dissatisfaction at the big printery and the men are to register a complaint with the Public Printer.

Gaston P. Phillips, the wealthy New York and Washington club man, was placed under $25,000 bail, when arraigned today in the District Court for murder. Dressed in the height of fashion, with complexion clear from his two month's of confinement, and nerves steady, Phillips assumed a nonchalant air as he heard read the indictment charging him with having shot and killed Frank McAboy a local cabman, and the Beau Brummel, of the tenderloin, after their all night round of the under world in May. The District Attorney objected to admitting the prisoner to bail but Judge Wright on the bench, said he saw no more reason for refusing in such a case than he would in a burglary charge. Bail was furnished by the defendants brother and sister, and the trio left to make their home in New York State.

With the thermometer skipping around the 99 degree mark in the shade, day and night, with the water and milk supply so polluted with germs that the inhabitants are warned by the federal authorities against using either without boiling, with some ice manufactured from foul, filthy water, the health department now makes the startling announcement that ice cream sold here is largely gelatine and starch and is unfit for use. All sorts of adulterations have been found in almost the only relief was left to the sweltering people.

Secretary Metcalf deprecates the war like aspect that has been given the order for the transfer of the great battleship squadon from the Atlantic to the Pacific coast. Metcalf says the proposed movement will be for a practice cruise and that the ships will not be kept in the place permanently.

Two important decisions have been reached by the Navy Department concerning the announced programme for the despatch of the Atlantic fleet to the Pacific first, only the newest and most modern ships will be sent, and second, the average of captains of the ships will be reduced from three to five years.

The effort that is to be made by the Department of Justice to throw into the hands of federal receivers the tobacco and powder trusts and all other alleged bad corporations which are to be prosecuted, hereafter, it is said, in a measure be taken as an official response to criticism that the President's trust policy is bumcombe. If the courts show the slightest disposition to meet the Department of Justice half way, in the latest sensational move, trust fighters here say a long step will be taken toward securing actual dissolution of trusts.

Officials of the Department of Justice say that the action of Judge Landis in bringing Mr. John D. Rockefeller into his court as a witness practically makes him immune from criminal prosecution, which was intended. At the same time little or no information was secured from Rockefeller.

It is officially denied at the Navy Department today that orders have been sent from here to the navy yards at Bremerton or Mare Island on the Pacific coast to rush the completion of repairs on the Oregon and Wisconsin. No rush orders of any kind, it is asserted, have been sent to the Pacific coast navy yards nor to any other, and none will be sent. While naval officers refuse to believe that the Japanese Admiral Sakamoto was correctly quoted when he was reported to have cast serious reflections upon the bravery of the American navy. It is no secret that a prompt disavowal of its accuracy by the Japanese government will go far toward removing the bad taste which its publication caused in the mouths of American officers. As to the talk of the possibilities of war with Japan, with which even the European papers are teeming, there is reason to believe that part of it at least is due to a campoign of a syndicate of capitalists whose headquarters are in London and Paris, but who have allies in New York, for the purpase of depressing the price of Japanese bonds.

William Loeb, jr., will retire from his post of secretary to President Roosevelt about December 1, and will be succeedad by Frank H. Hitchcock, now first assistant postmaster general. This arrangement has been finally agreed on, it is said, and is not contingent on the election of Mr. Loeb to the presidency of a Washington street railway company, a matter discussed at much length a few weeks ago. It is not believed Mr. Loeb will be tranferred to some other position in the administration.

News of the Day.

Pasquale Addonizio, of Newark, N, J., was overcome by illuminating gas escaping from a defective tube connected to a stove in his apartment this morning and died soon after being admitted to the hospital.

The democrats swept Annapolis in yesterday's municipal election. In addition to electing the mayor and city counselor they put in four aldermen out of six, giving them six members in a council of eight.

The American delegations to The Hague Conference yesterday introduced a proposition for the establishment of a permanent court of arbitration, some what on the lines of the Supreme Court of the United States.

Ratifications of the Dominican treaty, providing for the settlement of the debt of Santo Domingo, were exchanged at the State Department yesterday by acting Secretary Bacon and Mr. Joubert, the Dominican Minister in Washington. The new treaty must be proclaimed by the President; it will then be in order for the Dominican officials to provide for the execution of that part ot the treaty involving the floating of a loan of $20,000,000 to defray their outstanding indebtedness.

Railway Wreck With Commission.

The corporation commission is receiving a great mass of communications from people in Washington and those living along the line of the Washington, Arlington and Falls Church electric railway concerning the recent disastrous wreck on that road.

The communications are general in their nature, many of them containing clippings from the Washington papers with accounts of the accident and the conditions of the service. So far the attorney for the State in Alexandria county has sent no communication to the commission, contending himself with filing a report from a newspaper of the coroner's verdict and a review of the case as made by the newspaper.

The Richmond News Leader says.

The commission will compile all the data received bearing on the case, and will take some action in the regular order of business. Some time ago the commission issued an order against the railway company, but this was not final and so stated, and the commission is free to supplement that order at any time.

Colonel Willard, yesterday made the following statement in connection with the case:

The commission will possess itself of all facts in the case and take such steps as these facts and circumstances seem to justify. The original case of the Commonwealth at the relation of the corporation commission against the Washington, Arlington and Falls Church Electric Railway is still on the docket of the commission, and the commission is free to issue such supplemental orders in this case as may seem right and proper."

The Southern Planter for July has been received from its publishers in Richmond. It contains a number of well written articles of general interest to farmers, among them, demonstrative work on Virginia farms, practical moneymaking farming, alfalfa growing, fruit prospects in Piedmont Virginia, peach yellows, storing sweet potatoes, Holstein cows in Virginia, poultry rules, the coming motive power of the farmer, etc.

Virginia News.

Reports of census takers indicate that the population of Richmond is about 110,000.

Bishop Van de Vyver, who has been spending some time in Europe, will leave Liverpool on his return to Richmond in September.

The Adams Express Company has sent instructions to its agents in this State to refuse to ship C. O. D. packages of intoxicating liquors.

A movement on foot in Nelson county to erect a monument to Theodore Estes, who was shot and killed by Judge Loving. The ladies of the Adail Section have already raised $150.

Thomas McCarty, aged eight years, son of L. McCarty, of Fredericksburg, was drowned in the Rappahannock yesterday evening. With several other boys who were in bathing, he got in a leaky boat, which sank, drawing him underneath. James Pettit, a laborer, aged 27 years, was drowned in the Rappahannock yesterday evening while assisting in a search for the body of young McCarty. He had been using a hook from a boat, but went to shore and started to wade out in the river, getting in water over his head, and drowning before assistance could reach him.

San Francisco's Convicted Mayor.

Mayor Eugene E. Schmitz, of San Francisco, convicted of extortion, was sentenced yesterday to five years in the penitentiary. When sentence was pronounced there was a remarkable outburst of applause from the hundreds of persons who crowded Judge Dunne's courtroom. Schmitz must serve his term in the Quentin penitentiary.

Sentence followed the recent conviction of Schmitz for extorting $1,175 from French restaurant keepers. As the last words fell from the judge's lips, the crowd which had stood throughout the dramatic scene, sent up a thunderous cheer.

"Good for you!" shouted a man in the back of the room.

Several men threw their hats into the air; others stood on chairs to look over the shoulders of the crowd.

Attorney Fairall, of the defense, raising his voice above the din, called to Judge Dunne:

"Your honor, this cheering is a very unseemly occurrence."

"Well," retorted Judge Dunne, with spirit, "if we had a sheriff worthy of the name, it would have been stopped instantly.

Sheriff Thomas O'Neill was standing inside the rail. He turned to the court and protested:

"Nobody could have stopped it, your honor."

Special Agent Burns of the prosecution, led a number of baliffs, crying. "Clear the courtroom! Clear the courtroom!"

Some of the disturbers were hustled into the hallways. About 100 others kept their places around the counsel table, at which Schmitz sat, dictating a statement to newepaper men.

The sentencing of the convicted mayor was, in one respect, without a parallel in the criminal annals of San Francisco. Half a dozen times Judge Dunne was interrupted by Schmitz, who protested in strong words against the "delivery of a lecture" instead of a pronouncement of judgment. He accused the court of humiliating him unnecessarily, and giving opportunity for further humiliation by the reporting of his remarks in the press. Once, replying to the prisoner, Judge Dunne said:

Such brazen effrontery is probably no more than should be expected, and it is the duty of the court to bear it in patience."

Washington Statue.

It is said in Richmond that there is a movement on foot in Philadelphia to secure a bronze reproduction of the Houdon statue of Washington to replace the Bailey statue of Washington which stands in front of Independence Hall, Philadelphia. The Bailey statue is now in a state of disintegration and the idea is that it would be better to have a copy of the famous Virginia statue rather than attempt to restore the Bailey marble. Houdoun's statue stands in the rotunda of the State Capitol in Richmond and is regarded by many as the most valuable piece of statuary in America. The general assembly of Virginia, soon after pease was declared with England after the Revolutionary war, employed Jean Antoyne Houdon, of Paris, to make the Washington statue. He spent a fortnight with Washington at Mount Vernon and took a cast of the general's face and head and the upper part of the body and made minute measurements. It was completed in three years and was placed in the Virginia capitol in 1796.

Against the Railroad.

Judge B. F. Long, of the North Carolina State court, instructed the grand jury at Raleigh yesterday to indict every violator of the new law fixing the maximum charge of transporting passengers on railroads in North Carolina exceeding sixty miles in length at 2½ cents a mile, and providing a penalty of $500 for every violation, and making it an indictable misdemeanor for any agent of the railroads to demand or charge a greater rate. Judge Long said no court has jurisdiction in indictments except the Superior Courts of North Carolina, and that if the State Superior and Supreme Courts should both hold the act not repugnant to the federal constitution, the federal Supreme Court could re-examine the decision upon writ of error at instance of convicts under the act.

Fig Leaf Parties.

High society in the vicinity of Des Moines, Iowa, has had its ardor for figleaf parties completely chilled by a narrow escape from conviction of disorderly conduct in Justice Deford's Court Saturday afternoon. On Independence Day one Stephens discovered a party of giddy Des Moines people on the banks of Walnut creek. Under pressure of the heat and the inspiration of champagne on ice, men and women removed their garments to a startling degree and were wearing skirts made of leaves, which the ladies had artistically sewn together. Stephens had the whole party arrested. At the trial the jury rendered a verdict of acquittal, but advised the defendants not to let it occur again. Valley Junction is a suburb of Des Moines and the Valley people indignantly declare they have been insulted by Des Moines visitors.

Horrible Punishment.

Riga, Russia, July 9.—Horrible punishment has just been inflicted by revolutionists upon a former member whose treachery led to the discovery of a secret conference and caused the death of many of the revolutionaries and arrest of others of the band.

The central revolutionary committees of Courland, Livland and Estland used an old mill just outside Riga for their meeting place. A man named Sproge, who had broken with the revolutionaries, betrayed them to the police. Officers went to the old mill with soldiers and called on the revolutionaries to surrender. In trying to escape thirty of the conspirators were shot and killed. Many others were captured.

Spogg's treachery was discovered and other revolutionists decided to kill him by frightful tortures. He was captured and taken to the same mill where the revolutionaries had met. There he was tied to the floor and a loose sack with a small hole fastened about his head. A stream of flour was allowed to run through the hole, dropping on his head. Ultimately the sack was completely filled and Spogge was slowly smothered. His body was only discovered today, the revolutionaries having left him there with a note warning other traitors that similar or worse fate would befall informers.

Want Docking Facilities.

Cleveland, O., July 9.—The Press today publishes the following under a Washington date:

"An amazing problem now confronts the Navy Department as a result of its determination to send the battleship fleet to Pacific waters. There are no adequate docking facilities on that side of the continent, and unless the government can make use of private docks it will be absolutely necessary to have the fleet return to Atlantic waters a few months after the fleet's arrival in the far East. There is the big dock Dewey at Olongopo in the Philippines, but as yet there are hardly any shops at Subig bay, or an adequate number of workmen to take care of the ordinary repairs of a battleship. The one dock at Mare Island, San Francisco, is too small to take battleships, and the only one which is in any way equipped is that at Puget Sound, Ore. There ought to be a full docking plant at Hawaii, also at least two more naval bases on the Pacific coast, one in the vicinity of San Francisco and another at San Diego or some nearby point where adequate harbor facilities may be had."

Mrs. Corey in Grand Opera.

Paris, July 5.—Mabelle Corey, wife of the Pittsburg steel millionaire, has won the first contention of her married life. She has overcome her husband's opposition and will go on the grand opera stage, probably making her debut in 1908 as Marguerite in "Faust," at the Manhattan Opera House, New York city.

It was learned to-day that Mrs. Corey, shortly after the arrival of herself and her husband in Paris, following the wedding in New York, resumed her studies of voice culture under Jean de Reszke. Mrs. Corey, according to her preceptor, now has a voice ten times as powerful as when she sang in comic opera in the United States. Her voice also now has a certain melodic quality that it never had before. The decision of Mrs. Corey to return to the stage is declared to have been against the earnest wishes of her husband He desired, it is said, that she give up the stage altogether and enter the lists to force an entrance into New York society. There was no quarrel between husband and wife over the matter, but Mrs. Corey prevailed.

The President's Visitors.

Oyster Bay, N. Y., July 9.—Trustbusting problems are under discussion at Sagamore Hill today, for the President's guest list includes Herbert Knox Smith, chief of the Bureau of Corporations, and Frank B. Kellogg, special counsel employed by the Department of Justice in the prosecution of the big corporations that have in the opinion of the administration broken or evaded federal laws. Former Postmaster W. R. Willcox, of New York, who resigned to head the New Public Utilities Commission, also had a conference with the President regarding the selection of his successor. The President's luncheon guests included W. D. Miller, a scientist connected with the American Museum of Natural History.

Attacking Orchard's Evidence.

Boise, July 9.—Depositions attacking Harry Orchard's story that he planted a bomb for F. W. Bradley, a former mining owner, in an attempt to carry out a commission from leaders of the Western Federation of miners are again being read in the Haywood case today.

The testimony given by experts in the case of explosives and experienced gas men is all in support of the theory that the explosion was due to a gas leak in the Bradley flats and that Bradley's cigar caused it.

The reading of the depositions is expected to take all the rest of the day. Haywood or President Moyer of the miners' federation will probably take the stand tomorrow.

Three Men Drowned.

New York, July 9.—Capsized in the middle of the Hudson river, three members of the crew of N. C. Tierce's palatial steam yacht, the Yacoma, are missing and undoubtedly drowned. The trio with three others had been on shore leave. Arriving early today at the Columbia Yacht Club house the men asked Gus Happleman, the club watchman, to row them to the yacht on the Jersey side of the Hudson. Happleman's only boat was so small that he demurred, but was finally presuaded and was in midstream when the little craft was capsized by the wash of a passing ferry boat. Three of the men were rescued, but the other three could not be found in the darkness.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Will Plead Insanity.

New York, July 9.—That the defense of Chester B. Runyan, former teller of the Windsor Trust Company, who stole nearly $100,000 from the company, will probably be insanity, was revealed today when Runyan was arraigned to plead to the indictment charging him with grand larceny in the first degree.

Runyan's attorney, Wm. Cantwell, entered a plea of not guilty, but was given until Monday to make any motion he desired. Cantwell said he might enter an insanity plea and ask for a commission to decide Runyan's sanity. He announced he will have an alienist examine Runyan in the Tombs.

To reporters Cantwell said later: "There is a strong taint of insanity in Runyan on the maternal side. His grandmother died in an insane institution. His act in taking the money is an indication of hereditary insanity."

Detectives today continued their search for the $25,000 of Runyan's loot which has not been found, but got no trace of the missing money.

Knights Templar Conclave.

Saratoga, N. Y., July 9.—Fifteen thousand Sir Knights, representing two hundred commanderies, Knights Templar, from every part of the United States, marched today through brilliantly decorated streets in this village. The occasion was the parade of the thirtieth triennal conclave of the grand encampment of Knights Templar, which is being held there this week. The parade was in charge of Edwin C. Hall, grand Captain-General of the grand commandery of the state of New York. Fully fifty thousand spectators watched the parade which required between 3 and 4 hours to pass the reviewing stands. The reviewing officers were Grand Master George Morton, of Chicago, and Governor Charles E. Hughes, of New York. The latter welcomed the Sir Knights to New York State at a meeting after the parade. Tomorrow the prize drills take place.

A Gallant Act Cost His Life.

Pittsburg, July 9.—Because he was so gallant, George Gray, of Pittsburg, is dead. Sunday night, Gray, a young married man, was on an open car with his wife, when a woman crowded on. There was no seat for her, and, Gray, who was on the inside end of a seat, motioned for the woman to crowd down. He got up and gave her the seat beside his wife. Gray was a large man, and it was necessary for him to lean out over the rail to allow the woman to slip into his seat. This he did with a laugh, which was his last sound, as another fast-flying car coming from the opposite direction, caught him, knocking him off the car and dragged him some distance, fatally injuring him.

Started on Honeymoon.

Boston, July 0.—R. L. Harriman, a member of the staff of the Broadway Magazine, and Edna Irene Gibson, of the Delineator, daughter of millionarie Edward Gibson, started on a honeymoon to parts unknown today after a hurried marriage. The couple met here last February and their acquaintance progressed so fast that yesterday Gibson, wired his daughter in New York to "come home." Instead she notified young Harriman and they went to Brockton and were married.

Negroes Roast the President.

Boston, July 9.—According to the New England Conference of the African-Methodist Episcopal Church in session here, the action of President Roosevelt in discharging the Brownsville troops will become an issue at the next campaign. The conference adopted a resolution to this effect which roasts the President and intimates that his action was a sop to the South. "Slavery is dead," says the resolution, "but the spirit of the southern oligarchy still lives."

Released on Bail

Knoxville, Tenn., July 9.—In the preliminary hearing today of Edward McNew, who killed Edward McLin, whom he found in company with Mrs. McNew at a park, he was released in $500 bail. McNew was told by a friend that his wife yesterday had left home in company of McLin. He hurried to the park, came upon the couple and fired three times, killing McLin instantly. Then he gave himself up.

Takes Issue With the President

Los Angeles, Cal., July 9.—President Roosevelt and N. C. Schaffer, president of the National Educational Association, have locked horns. Roosevelt wants rifle practise in public schools, "as a peace measure." Schaffer says: "There is already to much war talk and beating of drums and waving of swords in the school room. It is far better to teach arts of peace than pomp of war.

Richard Mansfield

New York, July 9.—Richard Mansfield will not be seen on the stage next season. A letter from the famous actor, who is at the present time recuperating in England from nervous breakdown suffered at the close of last season, states that he will return to America in October, but that his physicians say it will be a year at the least before he can resume his work.

Placed in the Penitentiary

Kansas City, Mo., July 9.—Robert Woolsey Hume, a graduate of Yale College this year, was taken to the Kansas State penitentiary today to begin an indeterminate sentence of from one to five years for forgery. Hume attributes his downfall to the girl he married while still in college to get money for whom he began forging checks.

Purchases New York Mansion.

New York, July 9.—President James B. Duke, of the American Tobacco Company, has bought the late Henry H. Cook's mansion at the corner of Seventy-eighth street and Fifth avenue. The house adjoins that of Payne Whitney, and is said to have cost $1,600,000. The place was bought as a bridal gift to Mrs. William Inman, of Atlanta, who will wed Mr. Duke in Europe soon. The couple will sail from New York next week and spend the honeymoon abroad, returning late in the fall. Duke was at one time reported as a bidder for the "Silent" Smith house, once the residence of Wm. C. Whitney.

Bad Burn Quickly Healed.

"I am so delighted with what Chamberlain's Salve has done for me that I feel bound to write and tell you so," says Mrs. Robert Mytton, 457 John St., Hamilton, Ontario. "My little daughter had a burn on her knee. I applied Chamberlain's Salve and it healed beautifully." This salve allays the pain of a burn almost instantly. It is for sale by W. F. Creighton & Co. and Gibson & Timberman.

Will Take His Daughter Home.

New York, July 9.—Dr. Powhatan S, Schenck is on his way from his Norfolk, Va., home to take back his daughter Florence. Though he disowned her when she eloped with Charles H. Wilson, Dr. Schenck says he loves his daughter better in her trouble than ever before. Penniless and dependant for shelter on friends she made on the return voyage from Europe with Wilson, Miss Schenck is at the point of nervous prostration at her room in the Victoria Hotel, where she was taken on the steamship's arrival here late yesterday. Sometimes the former Virginia belle raves of her plans to take her case against Wilson into the courts, sometimes she threatens to kill Wilson and herself, sometimes of the vengeance she believes her father will take, but more often it is of her longing for home that she speaks. "Father, forgive me," she exclaims again and again, "I have been deceived. It was true love that drove me from your home. I want to go back. He did marry me—he did. Forgive me, for my heart is breaking."

Richmond, Va., July 9.—The register of the Hotel Richmond of October last year discloses no such names as those used by Miss Scheneck in her narrative, although a Mr. and Mrs. E. P. Wilson were registered on October 21, 1906, and were assigned to room 326.

An examination of the court clerk's marriage register disclosed that no marriage certificate had been issued there October 19, 1906, ncr was the name of the alleged bride or H. C. Wilsrn, registered on the record of those receiving marriage licenses at any time during the month.

The Longshoremen's Union

Detroit, Mich., July 9.—Admitting that his organization had gone back somewhat during the year, President Keefe, in his annual report to the International Longshoremen's Union, today urged upon his followers the importance of economy of right living. He said: "No man who works for wages can afford to spend any portion of his earnings for intoxicating liquors. I hold that temperance is a most

Wants to Take War Path

Lawton, Oklahoma, July 9.—Filled with fire water and despondency over military troubles and deserted by his eighth wife, Chief Geronimo, the famous Apace warriror, has been trying to take the war path. Soldiers from Fort Sill captured him in an attempt to escape from Cache, across the Texas Pan Handle and into Mexice to join an Apache band which has been giving trouble along the border recently. Geronimo had been a visitor at an Indian celebration, sham battle and imitation stage robbery given by Comanche Chief Quanah Parker at Cache and was several miles from the camp when overtaken.

Panic on Steamer.

Hudson, N. Y., July 9. — Hurled from their berths by the sudden stranding of the People's liner C. W. Morse on a bar at the fishing grounds at Coeyman's, frightened passengers and started a panic early today which the officers had hard work to check. Assured that there was no danger, the 450 frightened men and women who had rushed, scantily attired to the deck, returned to their state rooms. Tugs from Albany and Hudson are having much difficulty in pulling the Morse off.

The Morse was floated at high tide and is now at its pier in New York.

Protests.

Boston, July 9.—Readers of the Christian Science Church with their attorneys are meeting here today to prepare a protest to be filed with Judge Chamberlain against subjecting Mrs. Eddy to the indignity of examination by alienists. The decision of the judge in the Eddy case to add medical men to the commission appointed to determine her sanity h profoundly stirred church circles and every effort is being made to prevent the examination. If the court denies the petition, influence will be brought to bear upon the physicians appointed to make the examination.

The South's Railway Mileage.

The South's railway mileage in 1907, 66,000 miles, equals that of the entire United States in 1872, at the time of Grant's second election. The wealth of the whole country in the aggregate was $16,000,000,000 at the time of Lincoln's first election, in 1860, and its increase was slight, necessarily, between that date and Appomattox. The value of the South's real and personal property is over $20,000,000,000 in these Rooseveltian days.—[Leslie's Weekly.

FLOATING GAMBLING DENS.

Drastic action was taken by the government yesterday against the steamer City of Traverse, the operations of which on Lake Michigan have, within recent months, attracted considerable attention. Orders were issued by acting Secretary Murray, of the Department of Commerce and Labor, for the revocation of the vessel's sailing license and the cancellation of her passenger certificate. In complaints which have reached the Department of Commerce and Labor, from citizens, from the authorities of the city of Chicago and from the officials of the State of Illinois, the City of Traverse was branded as a gambling den and a floating poolroom. The vessel leaves the city of Chicago each week day and proceeds to an anchorage at the intersection of the State lines of Illinois, Indiana and Michigan. There, it is alleged, those who control the vessel conduct gambling operations of various kinds. Returns from all the racetracks in the country are received on board the boat by wireless telegraphy and the passengers are afforded every opportunity to wager their money on the races. In addition, it is further asserted, they may play at faro, routette, poker or any other game of cards or with any known gambling device.

It will be seen by the above that it is within the province of the government to put a quietus on boats used for gambling purposes, and by simply revoking the licenses of tugboats which transport people to and from arks or houseboats [illegible] gambling purposes such enterprises could be brought to an abrubt [illegible]. The license to sell liquor could also be revoked. The owners of the ark anchored off Jones's Point which has for a long time been an annoyance to many people in this [illegible] summarily dealt with by the United States authorities. In this connection it may be stated that Mr. S. G. Brent, Commonwealth's Attorney, recently visited Richmond and had an interview with Governor Swanson in reference to the ark now anchored opposite this city. The Governor assured Mr. Brent that he would communicate with Governor Warfield of Maryland, and do everything possible toward having the ark removed.

ARCHIBALD TAYLOR TO MARRY.

A wedding of much interest will be that of Mr. Archibald H. Taylor, a prominent member of the Baltimore bar, to Miss Mary M. Parker, of Port Chester, N. Y., which will take place tomorrow at the home of Miss Parker. There will be in attendance about a dozen persons, including only the immediate families and a few intimate friends. Miss Parker is of an old and distinguished Boston family, being the daughter of the late Richard Parker and a granddaughter of the late Charles Thorndike on her mother's side. Her grandmother was formerly a Miss Purnell, and was a Marylander. She owned "The Plains," in Caroline county, one of the old manors of the State, which later came into the possession of her grandson, the late Allen Thorndike Rice, who died on the eve of sailing, after being appointed by President Cleveland as minister to Russia. The bride will be given away by her brother, Mr. James Parker, of Boston. She is a talented and accomplished woman, and has traveled extensively abroad. Mr. Taylor has been a resident of this city for 30 years, and has won a high place in his profession. He was born in Washington, and received his degree of master of arts from the University of Virginia. He is a grandson of Robert Johnstone Taylor, well known in his day as one of the leaders of the bar before the Supreme Court of the United States, and also of General Archibald Henderson, for nearly 50 years commandant of the Marine Corps of the United States, and one of the heroes of the war of 1812 and of the Seminole and Creek wars. Mr. Taylor is a member of the Maryland and University clubs. After an extended wedding trip, which may include Europe, he will bring his bride to Baltimore, where they will reside.—[Baltimore American.

Mr. Taylor is a native of this city, where he spent the early days of his life and where he has many friends and relatives. He is a brother of Mr. Julian Taylor, of this city.

FIGHT AGAINST OPEN SHOPS.

At separate meetings last night of the Central Labor Union and the Bricklayers' Local Union in Washington decisive action was taken bearing upon the present labor situation in the District of Columbia.

The Central Labor Union voted unanimously to give its unqualified support to the fight for the closed shop which is now being carried on by the building trades.

The Bricklayers' Union voted to return to work for one week, pending a conference with the Employers' Association of the Building Trades on the situation.

The action by the Central Labor Union was taken at a meeting exceeding in spirit and interest any gathering of that organization, or any other labor body, in the history of the District. The decision to carry through the fight against the open shop was accorded the unreserved support of every delegate, and warning was given to every union man that no half-hearted interest would be tolerated.

Many Alexandrians who work in Washington are interested in this movement.

SUIT FOR $5,000 DAMAGES.

The suit of John H. Latham against the Southern Bell Telephone and Telegraph Company for damages amounting to $5,000 was brought yesterday in the law and equity court of Richmond. Mr. Latham is a Manchester man and at one time was foreman in the Winston Electric Company. He was hurt by lightning while using a telephone. The accident occurred a year ago in the Potomac yards near Alexandria, where Mr. Latham was working. Lightning struck the 'phone wire and passed down it to the 'phone, where it inflicted the injury. All sense of hearing was destroyed in one of Mr. Latham's ears. He was treated at the Alexandria Hospital.

PERSONAL.

Rev. Father Richard L. Carne left yesterday to enter the annual retreat of the Catholic clergymen of the diocese of Virginia, at Georgetown College, and Rev. Father Kelly, the assistant rector of St. Mary's Church, left for the retreat today.

Miss Blanche Stansbury has returned from a month's visit to friends in Baltimore.

Mr. Harris Franklin, formerly of this city, but now of Washington, is seriously ill at his home in that city.

Mrs. E. S. Fleming is quite ill at her home on Cameron street.

Mr. and Mrs. W. E. Fendall are spending the summer in Albemarle county.

Col. J. A. de Lagnel left last night to spend the summer at Old Point.

Mr. George West and daughter Miss Maggie, have returned from Colonial Beach where they spent a few days with a party of friends from Washington.

ASSISTANT SUPERINTENDENT.

Mr. Percy Clift, of this city, foreman at the car barns of the Washington, Alexandria and Mount Vernon Railway Company at Four-mile Run for several years, has been appointed assistant superintendent of the road, with headquarters in Washington. Mr. Clift has been succeeded as foreman by Robert Nave, of Chattanooga, Tenn. Mr. Clift has been in the employ of the electric railway company for a long time. He has always been faithful and courteous, and his many friends will be glad to hear of his promotion.

POLICE COURT.

[Justice H. B. Caton presiding.]

There were but three cases before the Police Court this morning, and they were of a trivial nature. Two citizens had been cited to appear and show cause why they should not be fined for maintaining nuisances. They were dismissed with an admonition. Another resident, who was charged with harboring a vicious dog which had bitten a little child, was also dismissed with the assurance that should the cur be allowed to run at large it would be killed and the owner fined.

FUNERAL.

The funeral of the late Bernard R. Cline, who died Sunday, will take place at 6 o'clock this evening from the residence, 224 north Fairfax street. The services will be conducted by Rev. E. V. Register, assisted by Rev. Messrs. C. D. Bulla and P. P. Phillips. The pallbearers will be Messrs. Frank Warfield, Edgar Warfield, R. M. Latham, C. A. Yohe, J. W. Hammond and Lieutenant James Smith. The interment will be made in St. Paul's Church cemetery. A detachment of the Alexandria Light Infantry will fire a salute at the grave.

MOTOR BOATS RACE.

The new motor boat belonging to Mr. R. Bruce Emerson and another of the same pattern owned by Mr. William Moore raced yesterday evening off this city. The boats shot through the water like sharks and both made remarkably good time. They raced down as far as Jones's Point, when the contest was resumed up the river. Mr. Emerson's boat proved the fleeter of the two. The race was witnessed by many people.

CORNERSTONE LAYING.

Rev. C. D. Bulla, pastor of the M. E. Church South, today received a dispatch from Governor Swanson announcing his purpose to be present at the laying of the cornerstone of the George R Hill Memorial Hall on Friday afternoon at 5 o'clock. The Governor will deliver the address on that occasion.

WHY NOT?

The following is told of a young Alexandria matron; this may not be original however:

"Mamma, am I to have a new doll?"

"Your old doll is still quite good, my child."

"But, I, too, am quite good, and yet you have a new baby."

EAGLES' EXCURSION.

Washington Aerie, No. 125, Fraternal Order of Eagles, gave an excursion to Luna Park today. There was a large attendance and more visitors are expected tonight, as Prof. Beachey will show the "boys" how to fly and cavort in the air like a real eagle.

RECHABITES.

The meeting of Perseverance Tent of Rechabites last night was well-attended. Refreshments were served during the evening. Members of the order deny that the tent has taken any official action looking toward an increase in the license tax of saloons in this city.

"To Keep Well

The whole year through," writes L. A. Bartlett, of Rural Route 1, Guilford, Me., I and my family use Dr. King's New Life Pills. They have proven most satisfactory to all of us." They tone the system and cure biliousness, malaria and constipation. Guaranteed at E. S. Leadbeater & Son's Drug store.

LOCAL BREVITIES.

The City Council meets tonight.

A number of the men who recently left the service of the electric railway have returned to their old position.

A well-attended meeting of Alexandria Lodge of Elks was held last night at which several candidates were initiated.

The temperature this morning was decidedly cooler than that of yesterday, but at 3 o'clock this evening the mercury ran up to 86°.

The annual family excursion of St. Mary's Church to River View took place today. Many persons will go down at 7 o'clock this evening.

A freight car jumped the track on the embankment a short distance north of the union passenger station yesterday, and blocked the freight tracks. Trains passed up and down Henry and Fayette streets while the car was being replaced on the rails.

It is stated that the committee from the Central Labor Union, of Washington, which recently held a conference with the directors of the W., A. & Mt. V. Railway concerning the discharge of some of the electric railway men, will submit their report tonight.

In the advertisement of M. B. Harlow & Co. a day or two ago it was stated that house No. 419 south Lee street was for rent. It should have been No. 409.

A marriage license was issued in Washington yesterday to Charles W. Beattie, of Alexandria, and Ada Butler.

A commission of lunacy today declared George W. Schafer to be of unsound mind.

Raspberry water ice and frozen custard are served at Mr. Bloch's confectionery, 615 King street.

Guarding Mr. Frick.

New York, July 9.—Henry C. Frick, the steel king, does not wish to be killed by an anarchist. He sailed for Europe today and as he deems the anarchist crop more abundant there than even in this country, two stalwart guards accompanied him. One or the other will watch over him day and night during his absence. Two guards take turns and turn about in following Frick.

Earl Sued for Divorce.

Edinburg, Scotland, July 9.—The Earl of Rosslyn has been sued for divorce by his American wife. The Rosslyns met on the stage. The earl, once a lieutenant in the Royal Horse Guards and an officer in the English force which relieved Lady Smith, was driven by poverty to work, first as a war correspondent in South Africa and later as an actor. He gained distinction, too, as a turf plunger, and the inventor of a "system" by which he believed he could break the bank at Monte Carlo. The "system" failed. The countess was Anna Robinson, a daughter of George Robinson, of Minneapolis. Beginning as an artist's model, she took up theatrical work and, though not a great actress, won fame for her remarkable beauty. Abroad she was said to have fascinated King Leopold, of Belgium, and was once reported engaged to the Duke of Manchester. Lord Rosslyn and Miss Robinson were married in London March 31, 1905, but are said never to have been happy together. Before his marriage to Miss Robinson, the earl was divorced from a former wife, Violet Vyner.

Overdue Steamer.

New York, July 9.—The fact that she was forced to sail with a force of unskilled men in her boiler room owing to the strike of firemen at Hamburg, is given at the offices of the Hamburg-American line here as the probable explanation of the delay of the Batavia, now nearly four days overdue at Hoboken. Officers of the company say they are not concerned for the safety of the steamer, although they have received no word of her. The Batavia sailed from Hamburg on June 23 and carries 164 first-class passengers and 113 voyagers. She is a slow boat, taking 13 days for the passage under normal conditions.

The New York Stock Market.

New York, July 9.—The market had a heavy tone, due to small London selling and a switching of the room traders to the bear side, because of the prominence given to the President's anti-trust policy in the morning papers and uneasiness over money conditions. Enough selling was influenced by the bear factors to cause declines ranging from fractions to over one point all through the list in the first hour. But as the decline progressed the tone became quieter and there seemed to be again a scant supply of stocks.

No Cause For Alarm.

Paris, July 9.—The Temps today, commenting on the intention of the United States to send its Atlantic fleet to the Pacific, takes the stand that there is nothing in the movement to cause the slightest alarm to any other nation. It compares the maneuver to England's redistribution of her fleets three years ago, pointing out that no one protested then or had any right to protest.

Constipation.

For constipation there is nothing quite so nice as Chamberlain's Stomach and Liver Tablets. They always produce a pleasant movement of the bowels without any disagreeable effect. Price, 25 cents. Samples free. For sale by W. F. Creighton & Co. and Gibson & Timberman.

JUGGLING CITY ACCOUNTS.

Lincoln (Neb.) Citizens Kept In the Dark as to the Cost of Their Street Lights.

Lincoln, Neb., is getting an unenviable notoriety through the attempts of its officials to make it appear that its expensive municipal electric plant is supplying arc lights at a low figure.

In the report of the city auditor for the seven months ended March 31, 1906, although some of the elements of cost were omitted, the evident intention was to give a fair showing. But unfortunately it was shown that the cost ($73.68 a year for lamps burning only 2,580 hours) was larger than the contract price for lamps supplied by private companies in neighboring cities. This was unsatisfactory, of course.

Accordingly in the annual report for the year ended Aug. 31, 1906, there was a deliberate omission of depreciation and interest charges on that part of the plant's cost not covered by bonds —$21,691, or one-quarter of the total construction cost. Apparently, also, the lighting schedule had been reduced to keep the cost down, as the report shows that the lamps burned only 1,996 hours during the year. By these devices the cost was reduced to $50.09.

Soon after the appearance of this report the mayor gave out in a newspaper interview that the plant had been grossly maligned and that it was furnishing lights all night and every night at a cost of $51.12 a year. It is charitable to suppose that his honor was unaware of the fact that to give all night every night service the lamps must burn 4,000 hours a year instead of 1,996, as shown by the report quoted above.

At about the time the mayor's investigation appeared an investigation of the plant was made by Professors C. H. Richards and G. H. Morse of the University of Nebraska. Their detailed report gives the cost per arc per annum as $98.84 for an all night service, nearly double the cost claimed by the mayor. This report was made by the city's consulting engineer, but Mayor Brown, who is a candidate for re-election, has apparently not accepted its findings, although, according to the Omaha Bee, he now places the cost at $63.29.

It is worth [illegible] noting that the original estimate for this plant [illegible] was $55,000 [illegible] construction cost and $25,105 annual expense. The actual construction cost, as shown in the auditor's report, was $86,691, nearly 58 per cent in excess of the estimate. The annual expense, as shown by the expert report, is $32,519, exceeding the estimate by 23 per cent.

This is a typical example of the sort of underestimating that leads cities to adopt municipal ownership and also of the official juggling of figures by which the public is temporarily prevented from learning that it has a white elephant on its hands.

STEAMERS BOTHER LONDON.

Council Can't Sell Them—Will Run Them Awhile—Wages and Fares to Be Cut.

Those who have made statements to the effect that the new London county council is not opposed to municipal ownership will find it hard to explain the report recently submitted by the committee having in charge the matter of the Thames steamboats.

In this report it is stated that they had tried in vain to sell or lease them and that their final decision to run them for four and a half months during the summer "must not be taken as indorsing the previous policy of the council or as implying any intention that the boats should be worked after the summer season. On the contrary, it is put forward as the best, if not the only practical, method of dealing with the problem presented to us." The committee also proposed to reduce fares and to diminish the wages of the employees, which they consider in excess of what is equitable.

In regard to the scheme for an enormous municipal lighting and power plant, the preliminary steps for which were taken by the old council, the present council has put itself on record to the effect that if this scheme goes through under no circumstances will the city operate the plant.

The Doctor Away from Home when Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Dirrahoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by W. F. Creighton & Co. and Gibson & Timberman.

Wise Counsel from the South.

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. K. Blankenship, of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles I was completely cured; so completely that it becomes a pleasure to recommend this great remedy." Sold under guarantee at E. S. Lerdbeater & Son's drug store.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by E. S. Leadbeater & Sons.
